RE: CC Docket No. 01-338, Review of the Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers

Dear Chairman Powell,

The Buena Park Chamber of Commerce was established to provide leadership by promoting economic vitality, community development and a positive image of Orange County. In order to achieve this, we must identify important issues, establish collaborative efforts in the interest of business and influence the public policy that affects our mission. One such issue, about which I am writing to you today, is unbundling regulation in the telecommunications industry.

Our business organization respectfully requests that the Commission adopt regulations that will encourage network investment and job creation..

Moreover, in the broadband market, companies should be encouraged to build new lines and more capacity so that all businesses have high speed internet access.

We hope you will consider these facts and our position before you make a decision at the upcoming Triennial Review.

Thank you,
[Gail S. Dixon](#)
